ODP-81-7098
24 JUL 1981

MEMORANDUM FOR: Chief, Information Management Staff, DDO

FROM: Bruce T. Johnson
Director of Data Processing, DDA

SUBJECT: Request for Temporary Assignment of GIMS
Programmer/Analyst to IMS

REFERENCE: Memo from C/IMS/DDO; Dtd. 19 Jan.'80
Same Subject

Bill:

1. Please accept my apology for the inexcusable delay in responding to your memo.

2. Although the response is dreadfully late, the issue has not gone without consideration during the intervening months. Attempts to identify someone with suitable qualifications for a one year assignment has been extremely difficult. Our backlog in Applications is in excess of fifty work years.

3. Even with all this time having transpired, we were only able to identify an analyst for this assignment for a period of six months. [redacted] will be available beginning 3 August 1981. To provide additional support, [redacted] will be assigned on a full-time basis for a period of three months as soon as he completes his present assignment in November 1981.

4. [redacted] of your staff has been advised of both [redacted] assignments. In the time between now and the end of these assignments, we will continue to try to rearrange the schedules and commitments in an effort to meet your requirements.

5. Again, please accept my apologies for this late response.

/s/ Bruce T. Johnson
